

WASHINGTON, D. C. 20505

National Intelligence Officers

23 June 1980

MEMORANDUM FOR: Director of Central Intelligence

Deputy Director of Central Intelligence

THROUGH : Deputy Director for National Foreign Assessment

National Intelligence Officer for Warning

25X1

FROM

: John H. Holdridge

National Intelligence Officer for East Asia

SUBJECT

: Warning Assessment: East Asia

The following items were discussed by the Community Representatives at the 18 June Warning Meeting.

1. Japan -- Analysts were reluctant to predict the outcome of the 22 June general elections, although they tended toward a victory by the Liberal Democratic Party. The possibility was mentioned of a coalition government emerging made up of the LDP plus representation from the Democratic Socialist Party or the Komeito. No change in Japan's current policies and relationship with the US was foreseen. It was noted that Nakasone, for years a seeker of the Prime Ministership, now at last has a chance to succeed. Nakasone is known to favor greater Japanese attention to defense, but it was pointed out that even with him as Prime Minister Japan's current economic problems and monetary shortages will inhibit increased defense expenditures.

question of how the public will accept a new constitution elements of the old Yushin constitution, e.g. strong one government control of the National Assembly.	-man rule a	nd
government control of the National Assembly.	mair rate a	¯25X1
4. Analysts agreed that for the moment, at least, t	he country	is
quiet. Student activitists had been arrested or frighten	ed into	
passivity and the Kwangju riots have not caused people ou Cholla provinces to react. Nevertheless, the government	tside the	
allow a number of schools to open soon and other unknown	factors cou)
go to work and create problems. There is a possibility o	f	Lu
assassination and terrorist activities generated by Kwang	ju students	•
The government is watching the schools, and there is a br special forces assigned to the campuses.	igade of	OEV4
special forces assigned to the campuses.		25X1
5. Analysts termed the economic situation less than commented also that economic activity was beginning to pi The visit of Ex-Im Bank President Moore had helped in thi restoring a measure of economic confidence. Commercial b following a wait and see policy with respect to further is but have lots of money available and are conscious of the protect investments already made. The unemployment figur five percent, but there have been no further labor demons workers appear to understand that if they demand too much worse off.	ck up again s regard by anks are nvestments, need to e stands at trations;	
6. With the security situation quiet, US-ROK relationstation satisfactory. The Combined Forces Command is functioning troops used to suppress the Kwangju riots are back to nor US-ROK military cooperation has resumed. General Wickham the CFC has been appointed to the Special Committee Nation Matters (the new military dominated control mechanism) by removed.	, and ROK mal position 's deputy in nal Security	ı
7. In the North, analysts had not perceived any unus		
indicators. Troops were engaged in normal activities for		. y
of year, including agriculture.		25 X 1

had occurred elsewhere. This could be read as an indication that the North Koreans were getting their civilian population better prepared for war.	25X1
8. China — Following up last month's discussion, analysts called attention to possible frictions at the top on economic issues, as indicated by a spate of Peoples Daily editorials. For example, criticisms had been leveled at unnamed people who had favored a faster pace of modernization — an issue on which Hua Guofeng is vulnerable, in addition to his vulnerability on the question of material incentives. Nevertheless, the tone of such editorials was neither sharp nor accusative.	25X1
9. Analysts assume that Deng Xiaoping would indeed resign from his governmental position in August, taking Li Xiannian, Yeh Jianying, and perhaps Hua Guofeng with him. Hua would thus be left with only the Party Chairmanship. It appeared from editorials and other evidence that the top leaders were presently thrashing out issues before the major meetings scheduled for later this year. Analysts referred to the differences between Hua Guofeng's and Zhao Ziyang's definitions of Zhao's duties as Vice Premier, which suggested that Hua might try to hang on to the Premiership.	25X1
10. On the subject of Sino-US relations, analysts felt that the Chinese are quiet satisfied with the present state of affairs. The 4 June Holbrooke speech and Geng Biao's visit to the US had generated favorable Chinese comments, along with statements affirming coincidence of strategic views between the two countries. On the Geng Biao visit itself, the Peoples Daily commentary spoke first of all about this coincidence of views, and accorded less importance to US arms sales. There were, however, the "usual differences between the US and China on Kampuchea and Pol Pot.	25X1
11. As an indicator of the current state of Sino-US relations, analysts commented on the large number of people traveling from each country to the other. This had also occurred, it was pointed out, in the case of France, when in the early days of Sino-French relations similar flow of visits had occurred. The present volume of US-PRC travel nevertheless was much greater.	.25X1
12. One analyst remarked upon the key role which Hong Kong is assuming in Chinese policy. The Chinese are putting their representative into Hong Kong business and commercial concerns in significant numbers, probably to train their people in business practices but also suggesting that Hong Kong has a long-term part to play in China's economic development.	25X1

13. Commenting upon the Chinese refusal to respond to Soviet feelers on improving Sino-Soviet relations, analysts judged that Beijing's present policies, including expanded relations with the US are more valuable to the Chinese then achieving some easing of tensi with the Soviets along the border. There was agreement that a failut to continue to realize such benefits could generate some pressures a change, although there was no sign of this now. There was some speculation that if the Soviets revealed that their bid had been rejected, a considerable degree of ferment could be generated within the Chinese Foreign Ministry and PLA. Apropos of possible potential problems in US-Communist relations, attention was called to the Peoples Daily editorial critizing Governor Reagan's China policy.	ions ire for
14. No particular change in the Soviet OB along the Chinese border had been observed, except for the addition of a new Backfire regiment.	25X1 25X1
15. Philippines Reference was made to the reported manifestor of anti-Marcos activities provided to the Department of State by Senator Aquino, which called for a united front including the Communists against Marcos as well as armed demonstrations. Analysts recalled that a similar manifesto had occurred during elections some two years ago and this added nothing new. It was agreed that the Philippine situation merited close watching, however.	;
16. Indochina — Analysts addressed the security situation in Kampuchea, noting that the Vietnamese and Heng Semrin forces were having difficulties in maintaining control over the roads, although the level of DK attacks had not reached a point requiring special attention. Eastern Kampuchea was said to be fairly secure, but communications elsewhere were being hit; e.g., Route 4 struck one time, and a press report of an attack on a train NW of Phnom Penh confirmed. Not all these attacks were attributable to the DK; some were caused by elements which were essentially bandits. Heavy rains were now occurring, and Route 6 was under water. WN casualties were evidently fairly low, and Vietnamese troops were undertaking operation of their own. On the other hand, whole units of Heng Samrin troops had been deserting.	:
17. The DK forces were	n25X1

22. On the subject of the forthcoming ASEAN Foreign Ministers Meeting in Kuala Lumpur, analysts assumed that the main question which Secretary Muskie would be asked was how the US would vote in the next UN General Assembly on Kampuchean representation. Besides this, there was an underlying question on the score of US-Chinese relations and what they entailed for Southeast Asia. The Indonesians and Malaysians were not persuaded that the developing relationships between the US and China were not being undertaken at their expense. 25X1 23. Analysts suggested that the Thai might run into problems connected with the new effort to repatriate Kampuchean refugees from the camps located in Thailand. Nobody much was anxious to return—only 500 to 600 people had agreed to go —— and the Vietnamese were also objecting. There was a chance that the Vietnamese might try to scare some of the repatriates back into Thailand. 25X1 24. The Soviet presence in Vietnam was touched upon briefly. It appeared that the Soviets were concentrating this presence at Cam Ranh Bay by moving their air activities there from Danang. 25X1 25. Thailand —— The performance of Prime Minister Prem since he assumed office was summed up as not being too good. So far Prem had escaped serious criticism, but a critical point could come in about three months more unless he faced up to some of Thailand's pressing problems. This point in time would coincide with the date of announcing new 25X1 Math. Holdridge 25X1 6 23 June 1980				eş.

There was no indication to suggest25X1 That the Soviets were in any way cutting back on their aid to Vietnam 5X1 25. Thailand The performance of Prime Minister Prem since he assumed office was summed up as not being too good. So far Prem had escaped serious criticism, but a critical point could come in about three months more unless he faced up to some of Thailand's pressing problems. This point in time would coincide with the date of announcing new military promotions, which could also cause additional trouble for Prem. And Heldridge 25X1 46 23 June 1980				
also objecting. There was a chance that the Vietnamese might try to scare some of the repatriates back into Thailand. 25X1 24. The Soviet presence in Vietnam was touched upon briefly. It appeared that the Soviets were concentrating this presence at Cam Ranh Bay by moving their air activities there from Danang. 25X1 There was no indication to suggest25X1 that the Soviets were in any way cutting back on their aid to Vietnam 5X1 25.
